

Neon

One of the oldest but still the most brilliant & effective lighting for signage today. Corporations, no longer conservative, are discovering the dramatic effects that neon achieves when used by inventive designers with modern techniques

Far from being limited to signage, neon now permits a unique range of outstanding artistic expressions, reinforced by the 'vitality' symbolism of gas lighting energy. Graphical, architectural or sculptural the neon offers a wealth of possibilities in direct or indirect lighting. The neon can be a wall focal point for a corporate foyer, create an atmosphere in a hotel's atrium, enhance a restaurant with a mid-air display or echo an architectural structure

Talk to us, the people who make it in house. From a simple window Now Open to complex 3 dimensional signage; building strip lighting & halo effects catered for. A large range of colours & features available.

We also offer a complete signage maintenance & repair service in all areas.

The supply of neon sign components, site service & maintenance.
